Kohler Kayser & Stehr Mfg Co
St. Louis, Mo

Gentlemen

I have used your
enamelled iron evaporating dish in the
Pharmaceutical Laboratory of this College
for the past two months, during which
time it has been in constant use.
It has been subjected to severe tests,
having been used for chemical work,
involving the use of strong nitric and
hydrochloric acids, for washing solutions
of chloride of iron, sulphate of iron,
etc. It is with a good deal of satis-
faction that I am able to say that
the vessel is still as good as when
new, free from discoloration or pin-
holes of the enamel, and in every
way a very satisfactory dish.

Very truly yours

Edw. Oldberg
Professor of Pharmacy

Philadelphia 145 N. 2^d St. 1/12/88
Laboratory of Phila College of Pharmacy
Dept of Operative Pharmacy

Kohler Kayser & Stehr Mfg Co
Gentlemen

I have given
the evaporating dish that you sent
me for trial a careful test
with a great variety of liquids
corrosive and alk. alone etc
and the enamelling certainly is
more satisfactory and durable
than any dishes that I have
tested

Yours truly
Jas P. Remington

STEAM JACKET KETTLE.

| | | | | | | | | |
|----|----------|----|------|----------|----|----|------|-------|
| 25 | Gallons, | 24 | inch | diameter | by | 16 | inch | deep. |
| 33 | " | 28 | " | " | " | 16 | " | " |
| 40 | " | 29 | " | " | " | 17 | " | " |
| 50 | " | 31 | " | " | " | 19 | " | " |
| 60 | " | 32 | " | " | " | 21 | " | " |

These capacities vary somewhat, as the extra thickness of metal used for the heavier steam pressures decreases the capacity slightly.

These Kettles are made of very thick metal, put together without stay bolts, have ample steam space, are packed with asbestos sheet packing, tapped for inlet and drip pipes, and unless ordered for higher pressure are tested for 75 lbs. hydraulic pressure to the square inch; and are guaranteed perfect and safe for the pressure named.

Estimates Given on Application.

STEAM HEATED WATER JACKET KETTLE.

| Capacity. | Inside Dimensions. | | | | | Enameled. |
|-----------|--------------------|----|-------------|-------|--|-----------|
| 25 gals.. | 24 in. diam. | by | 16 in. deep | | | \$55 00 |
| 40 " | 29 " | " | 17 " | | | 72 00 |
| 48 " | 31 " | " | 19 " | | | 80 00 |
| 60 " | 32 " | " | 21 " | | | 95 00 |
| 90 " | 38 " | " | 22 " | | | 100 00 |

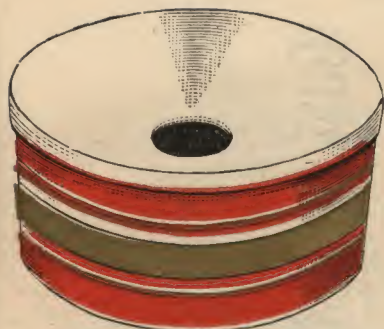

These Kettles are operated by allowing the space between the Kettle to fill with water, and keeping it at any temperature by the steam jet.

They work perfectly for any purpose requiring less than 212 degrees of heat.
